

University of Catania Department of Chemical Sciences

RSC Chemistry Day: 29th May, Aula A, 4 p.m.

Dear Colleague

*I am delighted to tell you that the **Royal Society of Chemistry*** will be visiting Catania University on **Wednesday 29th May**.*

This is an excellent opportunity to find out more about how they can support us in advancing the chemical sciences, especially with their publishing products and our Core Chemistry Collection. The day will cover:

- *Platform Training: find the content you need quickly*
- *ChemSpider: make the most of the RSC's free chemical structure database*
- *RSC Presentation: learn about RSC*

Kind Regards

Davide Fiore

Journal Sales Executive, Royal Society of Chemistry

**The Royal Society of Chemistry (RSC) is the largest organisation in Europe for advancing the chemical sciences. Supported by a worldwide network of members and an international publishing business, our activities span education, conferences, science policy and the promotion of chemistry to the public.*

Introducing

Prof. Guido de Guidi

The Director
